WE MAKE BUILDING EASY.® When you build a Veridian home, you get much more than a home designed around you and your dreams. You get the peace of mind that comes with nationally-recognized, award-winning, quality craftsmanship and energy efficiency. You get a home that's constructed using innovative building materials as well as the newest technology and building practices. The result is a high-performing, green and energy efficient home that's a healthier home for you and your pocketbook. And when you build with Veridian Homes, you build with a team of specifically trained experts who make homebuilding easy.

OPTIONAL 3-CAR SIDE ENTRY GARAGE

ALTERNATIVE KITCHEN LAYOUT

OPTIONAL OWNER'S
SUITE BATH LAYOUT

THE MAYBECK, NAMED FOR THE ARTS AND CRAFTS MOVEMENT ARCHITECT, BERNARD MAYBECK, is a fine tribute to his legacy. A well thought out design brings form and function to the space. The Maybeck features two flex rooms on the main floor, allowing you to create your own zones. Arts and crafts can be had in the back and perhaps a music room with a baby grand can resonate from the front. What's more, there are two bedroom suites upstairs – a master retreat and a guest oasis. Take some time to appreciate history, but also make sure to take time to appreciate the now, in your new home.

Floor Plan Features

- Two story foyer
- Kitchen open to great room and dining area
- Large kitchen island
- Quartz or granite kitchen counters
- Two flex rooms for formal dining, office, etc.

This Home is Quality 360® Certified

Every high-performance, Veridian home is tested by a third-party company, Perfect Environmental Performance (PEP). This testing allows us to individually certify each and every home we build meets the high standards of the Quality 360 program.

The Quality 360 program requires that all homes meet the highest standards in energy-efficiency, combustion safety, comfort and durability. This means that your dream home will not only look like a dream, but it will run like one too.

Exceeding Expectations

Better Energy Performance

Heating/Cooling Loss Protection

Peace of Mind

\$310 in savings every month!*

LOWER INDEX = HIGHER EFFICIENCY.

A HERS Index is the industry standard by which a home's energy efficiency is measured. A Veridian home receives a rating 56 HERS or better, averaging 51 HERS, compared a typical used home, which rates at 130 HERS – that's greater than a 70% increase in total energy performance. This means that your dream home will not only look like a dream, but it will run like one too.

*Estimated average monthly energy bill savings with the Maybeck. The costs were calculated using REM/Rate™ 12.97 and the HERS Score for the reference homes listed in the arrow chart and were published by RESNET, as compared to the typical used home. The typical used and new home scores were determined by the U.S. Department of Energy.
