WE MAKE BUILDING EASY.® When you build a Veridian home, you get much more than a home designed around you and your dreams. You get the peace of mind that comes with nationally-recognized, award-winning, quality craftsmanship and energy efficiency. You get a home that's constructed using innovative building materials as well as the newest technology and building practices. The result is a high-performing, green and energy efficient home that's a healthier home for you and your pocketbook. And when you build with Veridian Homes, you build with a team of specifically trained experts who make homebuilding easy.

THE HUDSON - 4 BEDROOM

THE HUDSON - 3 BEDROOM

A FRONT PORCH IS A HOME'S WAY OF SAYING "HOWDY, NEIGHBOR!" The Hudson offers the perfect place for setting up a porch swing and watching the world go by. Wave to the UPS driver. Invite a neighbor over for a cold one. Get to know the bike-riding kids and dog-walkers by name. Of course, there are times when you just want to read a book, too. That's why The Hudson has sliding glass doors leading to your private backyard – otherwise known as the howdy-free zone.

This Home is Quality 360® Certified

Every high-performance, Veridian home is tested by a third-party company, Perfect Environmental Performance (PEP). This testing allows us to individually certify each and every home we build meets the high standards of the Quality 360 program.

The Quality 360 program requires that all homes meet the highest standards in energy-efficiency, combustion safety, comfort and durability. This means that your dream home will not only look like a dream, but it will run like one too.

- Exceeding Expectations
- Better Energy Performance
- Heating/Cooling Loss Protection
- Peace of Mind

\$310 in savings every month!*

LOWER INDEX = HIGHER EFFICIENCY.

A HERS Index is the industry standard by which a home's energy efficiency is measured. A Veridian home receives a rating 56 HERS or better, averaging 51 HERS, compared a typical used home, which rates at 130 HERS – that's greater than a 70% increase in total energy performance. This means that your dream home will not only look like a dream, but it will run like one too.

*Estimated average monthly energy bill savings with the Hudson. The costs were calculated using REM/Rate™ 12.97 and the HERS Score for the reference homes listed in the arrow chart and were published by RESNET, as compared to the typical used home. The typical used and new home scores were determined by the U.S. Department of Energy.
